

AIMAAN KHAN

+91 9987786026 | MUMBAI, INDIA | aimaanjkaan@gmail.com

Objective

I am a self-motivated student seeking an internship opportunity in a dynamic and innovative organization. My goal is to acquire knowledge and experience while contributing to software development projects. I am open to all assignments and eager to leverage my technical and creative skills to excel in a challenging software developer role, working on the development and maintenance of innovative software solutions.

Skills & abilities

- Proficient in a range of programming languages, including:

- Java.
- CSS
- SQL
- C.
- E-Commerce
- HTML
- JavaScript
- Python
- MS Office

I excel in a variety of essential soft skills, including:

- Communication
- Teamwork.
- Adaptability.
- Problem Solving
- Leadership
- Emotional intelligence

Experience

CLOUDYBOSS

Software developer Intern | August 2023 – December 2023

- Assisting in the development of AI-driven endpoint detection and response (EDR) software, enhancing cybersecurity threat detection.
- Collaborating with the engineering team to implement machine learning algorithms for real-time threat detection in the EDR software.

Education

MUMBAI UNIVERSITY

Mumbai, India | BE in Computer Engineering

Currently pursuing BE in Computer Engineering in 3rd year

RIMS INTERNATIONAL JUNIOR COLLEGE

Mumbai, India | 12th HSC | Scored: 63.85%

ST. MARYS HIGH SCHOOL

Mumbai, India | 10th SSC | Scored: 73%

Projects

- **Pet Adoption Website.** (Front end development of the website.)
- **Currency converter based on Java.** (API integration for real time conversion rates)
- **2048 game using PYgame Python library.** (Implemented PyGame library into the game)
- **IOT based Automated water irrigation system.** (Hardware selection and IOT integration between code and hardware)
- **AI image Upscaler using CNN** (developed an AI software which improves image quality)
- **IOT based vehicle Location and speed tracker** (developed an IOT based location and speed tracker for vehicles)
- **Food delivery website.** (Development of food delivery website like swiggy)

Certification

- Demystifying Networking certification by Swayam (2023)
- HTML, CSS & JavaScript for WEB DEVELOPMENT By John Hopkins University. (2023)
- AI/ML workshop by Techobyte at IITB
- AWS Academy Graduate - AWS Academy Cloud Foundations.
